

EmilyTest Network

Fee Model - Scotland

This document details the costs associated with the EmilyTest Network. The EmilyTest Network is open to universities and colleges in the UK and Ireland. In Scotland, external funding from the Scottish Government and the National Lottery Community Fund allows EmilyTest to subsidise fees.

Our Fee Model Principles

The fees outlined have been developed alongside universities and colleges across the UK.

EmilyTest is committed to keeping fees at a subsidised level where possible, with support from external funding. This is to ensure that institutions can prioritise GBV work without being restricted by the financial pressures experienced within the sector.

ET Network Fees

Institutions pay an annual fee to be part of the EmilyTest Network. The fee is dependent on the number of FTE (full time equivalent) students studying at the institution.

The Network Fee is based on the type, size and location of your institution.

Membership is valid from 1st September to 31st August each year. In your first year, you will pay a pro rata fee based on the month you join the EmilyTest Network. You will then be able to renew your membership by 1st September each year.
